Immutable

Web App

UX / UI

Frontend

Backend

React

Next.js

Node.js

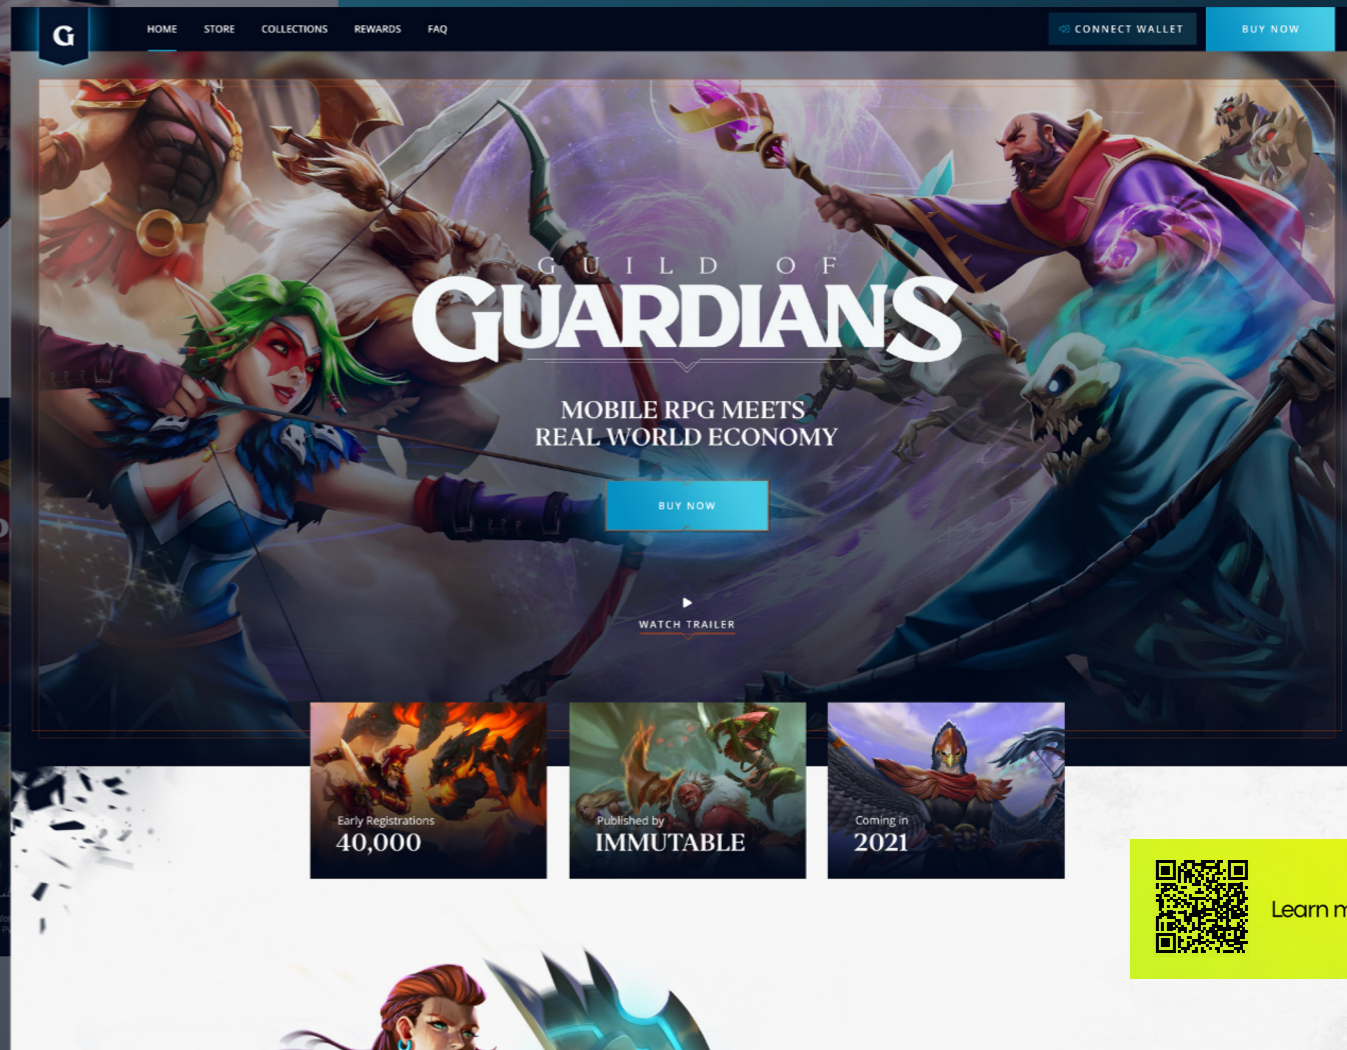

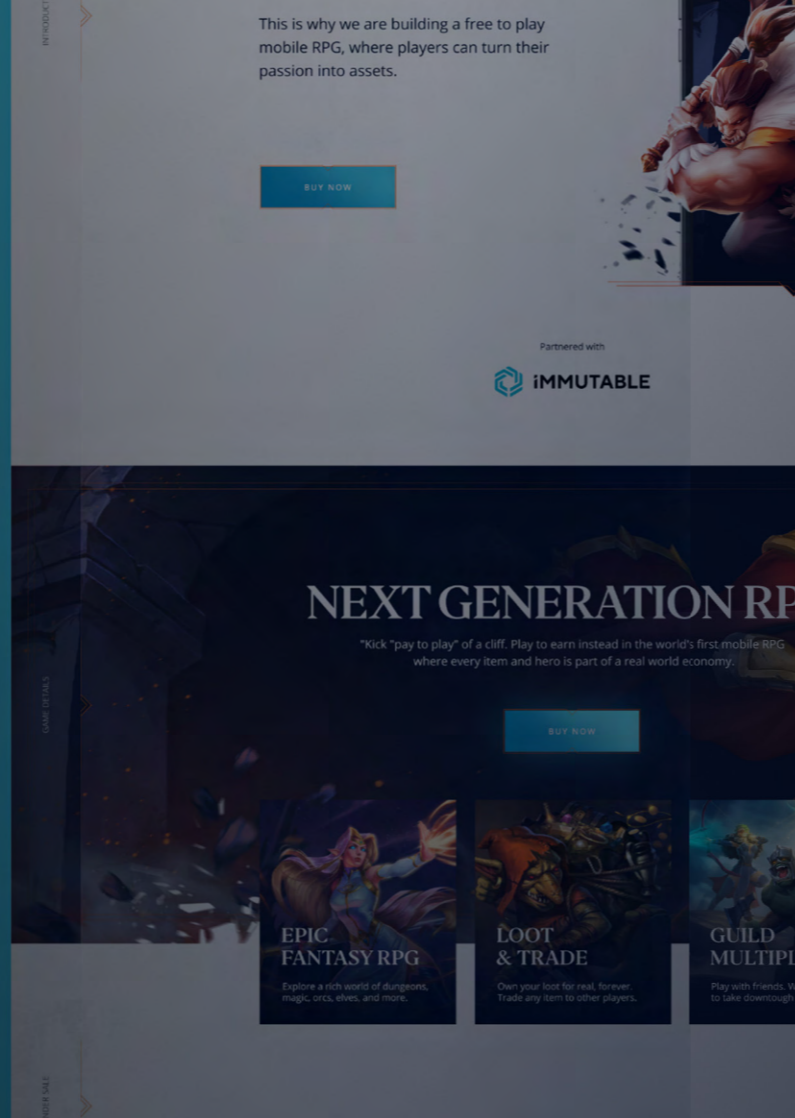

Solidity

Client

Immutable's 'Guild of Guardians' is a free-to-play mobile RPG where players can turn their gaming passions into blockchain assets.

Solution

We designed and developed the game's website, which also served as the NFT pre-sale platform. Our team continues to work with the client on UI design for the game. Making Immutable, the fastest Australian company to reach unicorn status and one of the most valuable startups.

Yoga

UX/UI

Frontend

Backend

React Native

Client

An app concept that reimagines the world of yoga, harnessing the art of illustration to enhance the yoga and mobile app experience.

Solution

Our design integrates a wide range of features and screens, delving into animation and the latest technologies to facilitate development.

GLOBE Fuel Cell Systems

Web App

Frontend

Backend

React

Ruby on Rails

Client

GLOBE builds zero-emission, smart, and connected fuel cell technology at the heart of the Mercedes-Benz research department.

Solution

We are developing a web application that allows clients to manage their fuel cells with ease and efficiency, providing an excellent user experience.

Ammotio

Web App

CRM

UX / UI

Frontend

React

Client

Ammotio provides a CRM system for the aviation industry and to the biggest airline companies.

Solution

We reimaged and redesigned the entire Ammotio application to make it more user-friendly and efficient, providing a seamless experience for their customers.

Time is Ltd.

Time is Ltd.

Web

UX / UI

Frontend

Backend

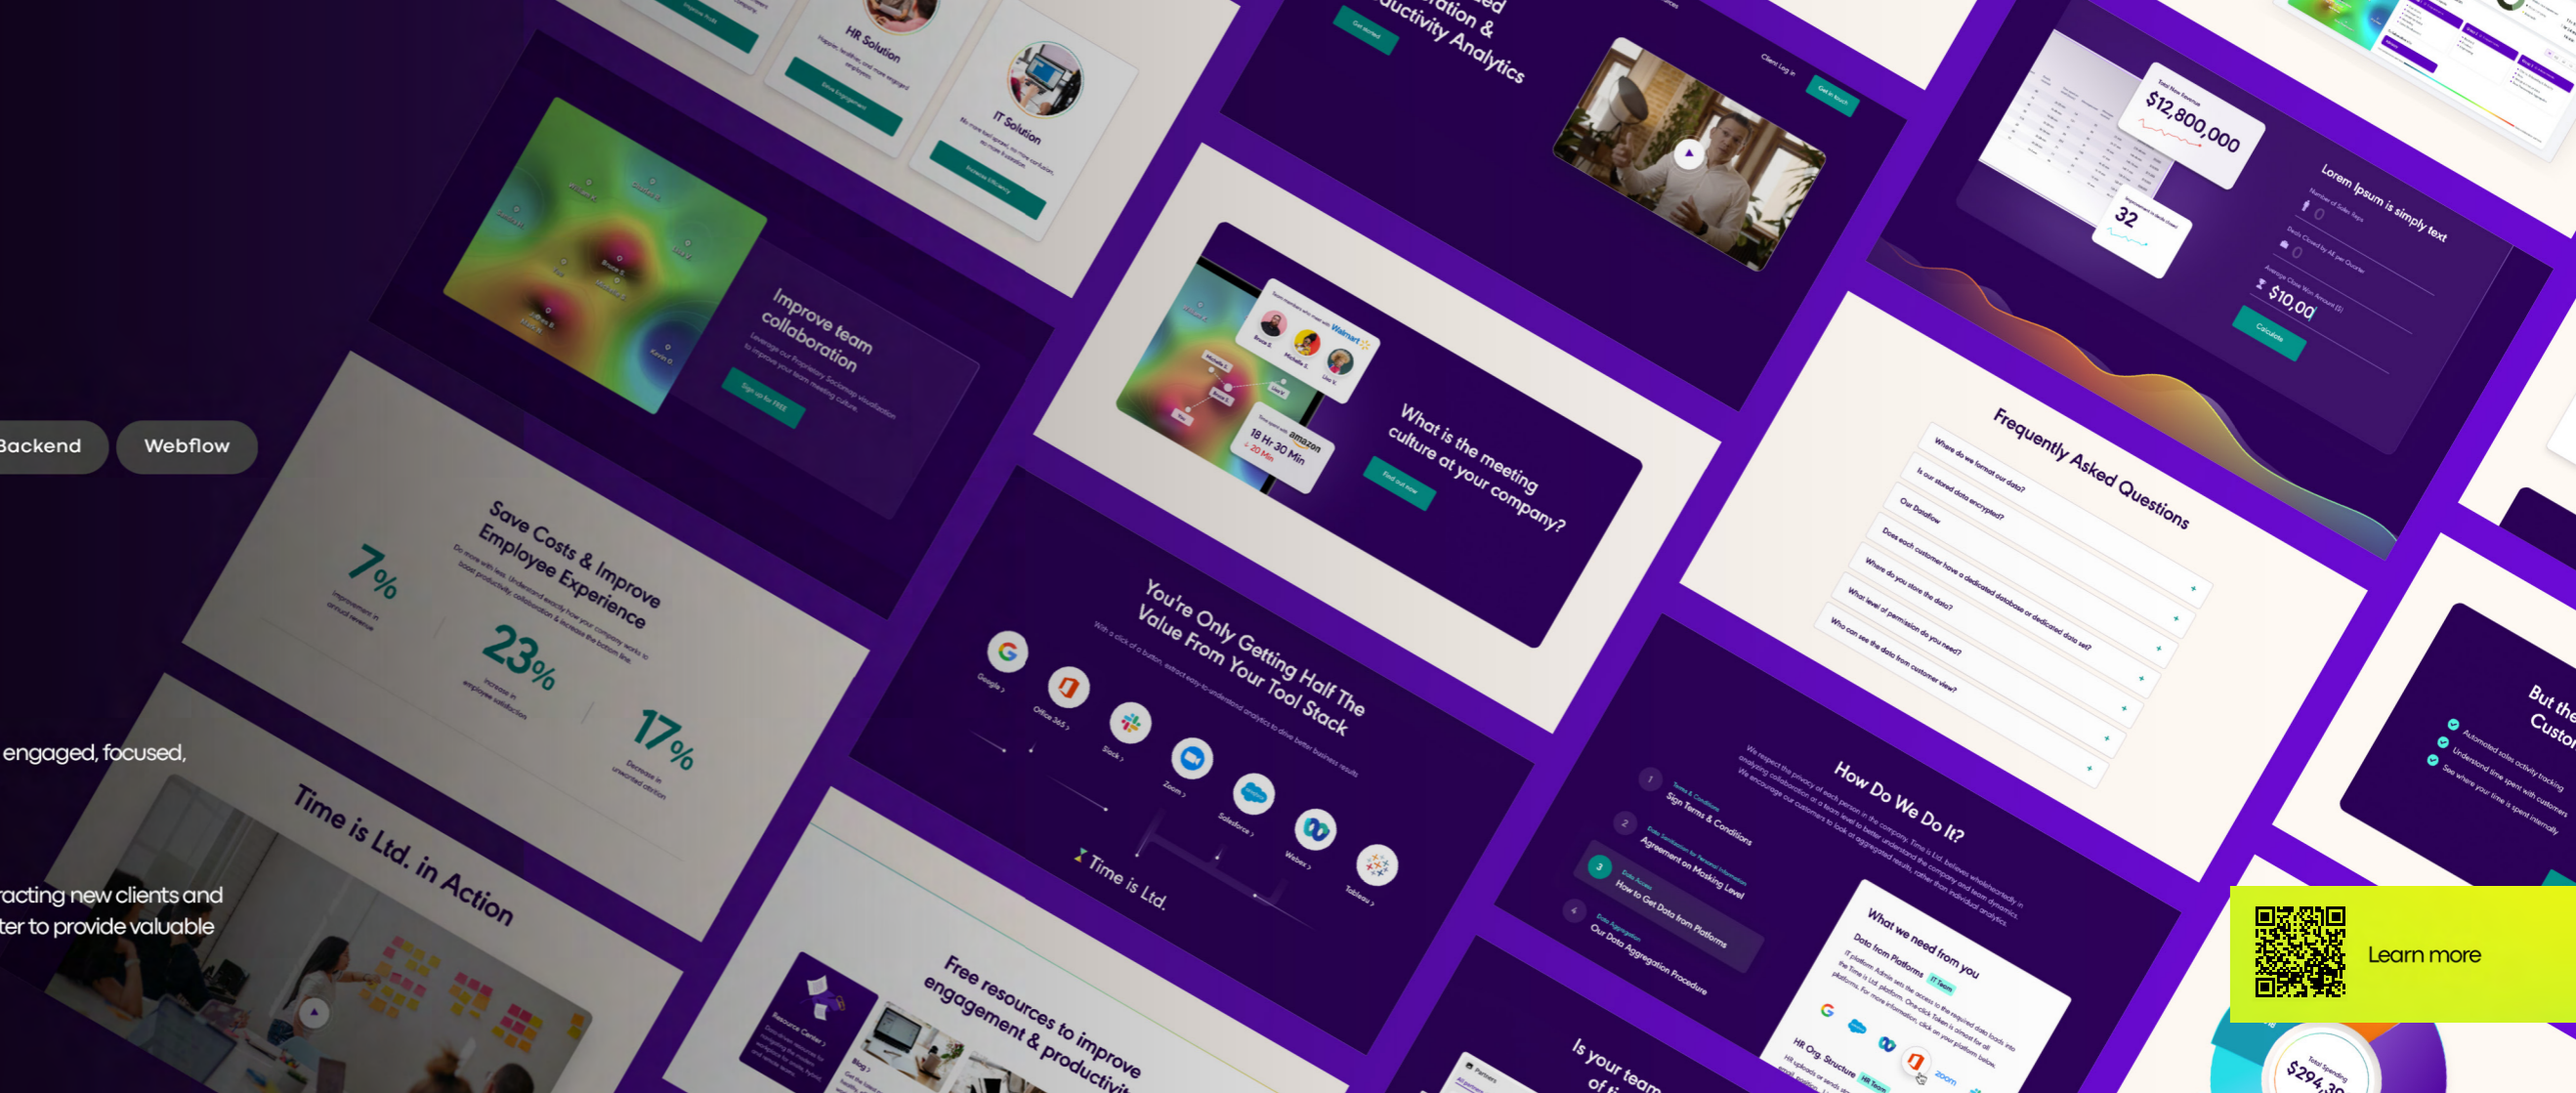

Webflow

Client

Time is Ltd. uses collaboration data to drive an engaged, focused, and thriving workforce.

Solution

We created a new website that focuses on attracting new clients and investors, while also developing a resource center to provide valuable insights and resources to their audience.

Cati.io

Web App

UX / UI

Frontend

React

Client

CATI.io helps evaluate embryos consistently to make better and more informed decisions.

Solution

We completely transformed the user experience of CATI.io by introducing an incredibly intuitive interface, making it easier for users to evaluate embryos and make informed decisions.

Pricing

We keep it real with you.
That includes the numbers.

Our pricing is transparent and flexible, based on project complexity.

For clear-cut projects with a defined scope, we can provide you with a fixed price cap. For more dynamic projects that require versatility, we charge hourly rates based on the estimated number of hours required.

This approach allows us to work collaboratively with you to create a product that meets your expectations, and then some.

The hourly rate varies depending on team seniority, composition, and contract length.
